

## **Reynolds Elementary School**

### **Holds a *Wonders* Introduction for Parents**

Reading Specialist, Jennifer Blasko, hosted parent meetings throughout the day on student/teacher conference day at Reynolds Elementary. Mrs. Blasko introduced the new reading program which the school district adopted and purchased in August of this school year. This year the reading curriculum for kindergarten through sixth grade is *Wonders* from McGraw Hill Education. The parents had an opportunity to learn about the different resources in the reading program, and how to use the digital items available to support their children at home. Hopefully, it will be very beneficial to all who attended.
