We are pleased to announce that Reynolds School District will continue to offer free healthy school meals, which includes breakfast and lunch, to all students on regular school days during the school year, as part of the National School Lunch and School Breakfast Community Eligibility Provision (CEP) Program.

Reynolds School District will serve free school student breakfast and lunches during regular school days beginning with the 2019-2020 school year. The program includes one free breakfast and lunch per student. Double lunches, snack, a la carte items are not included but will continue to be sold on a cash basis. No student charges will be allowed.

We will also continue to offer 1 free after school snack for those students participating in after school programs.

The Free Summer Feeding is offered from the last day of school (in June) to the beginning of school (in August) with the exceptions of holidays for students from anywhere and must be 18 years and younger. For additional Summer Feeding Sites across the USA go to: [www.fns.usda.gov/summerfoodrocks](http://www.fns.usda.gov/summerfoodrocks)

Reynolds also participates in the Back Pack Program, with the help of the local church volunteers, bags of foods are discretely placed in the students back pack for weekend consumption.

The cafeteria staff participate on Fridays "Wear Your Jeans to Work" for a dollar and all monies are forwarded to the back pack coordinator to help replenish some food so the program does not run out and the program can continue.. The Reynolds School District is excited to have the CEP program in our district! It is a wonderful opportunity for Reynolds Schools and families. The district is committed to ensuring the success of the program in the 2019-2020 school year and beyond. These programs are a blessing and the support and approval of the school board is greatly appreciated.

Back to school reminder: many children with food allergies are able to identify what they can and can't eat, but it's helpful if other parents and your child's friends know, too. If your child does, be sure to tell the school nurse, principal, and or food service department what types of foods your child must avoid. Medical plan forms are available on the district web site under the Food Service Department. These forms must be signed by a Physician or Medical Authority.
