COURSE DESCRIPTION

Students are required to complete the Intro to Art course prior to taking Art I. The Art I course will expose the Art student to advanced skills and techniques of two dimensional and three dimensional Art forms. The student will work with a variety of materials and mediums using the elements and principles of Art.

COURSE GOALS AND GRADING EXPECTATIONS

While striving always for the highest quality of work, the artistic growth, attitudes, effort and industry of each individual student is a necessary part of the grading procedure. At the end of each grading period, the student will be evaluated on work completed. This does not in any way relieve the student of the responsibility to make up all work prior to the end of the course. The student will complete, to the teacher's satisfaction, that effort comparable to the student's ability. Each project will be hold a point value ranging from 25 total points to 100 total points based on the complexity and extent of the project assigned.

CLASSROOM RULES

All school rules apply in the Art classroom. Each student will respect the rights of other students and their work. He/she will keep the Art room clean and take care of equipment and supplies. Each student should strive to do his/her personal best and work only on Art assignments during Art class. Artwork containing alcohol, drugs or satanic themes will not be accepted or produced during Art class.
