Jan 6, 2022

Raider School Community,

Please review the documents located on our webpage to learn about the approved changes to our [Health & Safety Plans](#). We hope that the continued partnership between home and school will keep us moving in a direction to achieve our goals and progress through our response to the COVID-19 Pandemic. These plans were developed using the most up to date guidance from the CDC, PADOH, and the PA Department of Education in conjunction with the recommendations of our school team.

These changes will begin to take effect as each department is ready to implement their part.

We will monitor case counts for a few days before implementing masking or closures to mitigate additional spread. Please help us by cooperating with the recommendations to avoid these measures.

Thank you for helping us maintain and progress through the difficulties we have faced as a district and community.

Respectfully,

Raymond C. Omer, Acting Superintendent
