

Media Tech Syllabus

Instructor: Mr. G. Tofani

Course Title: Media Tech

Full Year Course (1 credit, no grade pass/fail)

Phone 724-646-5700 Ext. 7041

Course Description:

Students will work along-side the teacher using the current social media venues to publish, post and inform those who select to view the information on the day to day activities of the Reynolds Junior Senior High School. This includes maintaining an informational Reynolds High School Face Book page. Other social media venues may include You Tube, Instagram, the district web site or other district approved venues for the course. At times a “link” may be posted that leads the viewer to another venue to view an article, picture or video.

The course is pass/fail, no grade will be assigned. Students will be required to attend a minimum of 4 events during each nine weeks in order to take photo and gather information on the event to report back to the classroom where we can create the postings for the teacher to upload.

Course Goals and Expectations

The goal of the course is to share the day to day experiences with those who chose to subscribe to our social pages. These will include but not be limited to academic classroom activities and extra-curricular activities (both athletic and non- athletic).

Classroom Rules

Students will not have direct access to “posting”. Any attempt to control, hack or post information without knowledge of the teacher will result in removal from the course as well as punishment seen fit by the administration. The art classroom will be conducted in an orderly manner. All school rules apply as well as rules posted in the art room that are specific to the classroom. (see your student handbook for school rules).
